From: Michael Fries
 Acting Meteorologist in Charge
 Weather Forecast Office Buffalo, NY

Subject: Change in Gage Zero Elevation for the River Gage
 above Dansville on the Canaseraga Creek (DSVN6)

Effective at 16:00 Coordinated Universal Time on Mon November 20, 2023, the USGS will change the Gage Zero/Gage Datum for the river gage above Dansville on Canaseraga Creek from 713.83 feet above North American Vertical Datum of 1988 (NAVD 88) to 711.83 feet above North American Vertical Datum of 1988 (NAVD 88). The gage will remain at the same physical location. Only the elevation of the Gage Zero will change. This will result in a gauge height 2 feet higher than in the past.

The National Weather Service welcomes public feedback. If you have any questions or comments on this change, please contact:

Kirk Apffel
Hydro Program Manager
National Weather Service Forecast Office
